

Treating Cancer ***A Human Approach***

A Community Health Update by Gary E. Foresman, MD

When: Tuesday, February 21st from 5:30 – 7:00 p.m.

Where: Equity Reach Mortgage – *Community Conference Room*
107 Nelson Street, Arroyo Grande

Gary E. Foresman, MD, Fellowship Trained and Board Certified in Internal Medicine, Functional, Anti-Aging and Regenerative Medicine, and Fellow in Integrative Cancer Therapies, presents this educational discussion on dealing with cancer in a proactive, positive manner. Dr. Foresman will review the science, physiology and psychology of making important decisions on how to approach healing cancer from both a Western and a Natural perspective as part of your journey to overall health and healing.

- Treating the Person with Cancer
- The Truth About Anti-Oxidants
- When to Use Chemotherapy
- How Natural Approaches Improve Chemotherapy Effectiveness
- How to Support Your Body and Feel Better if You Choose Chemotherapy
- How to Improve Your Overall Wellness and the Process
- A Holistic Approach to the Diagnosis and Treatment of Common Cancers Like Breast, Prostate, and Colon Cancer

Please RSVP at (805) 481-3442 □ Dr. Foresman's lectures fill up quickly.
